## PROFESSIONAL SUMMARY

---

I studied at Faculty of arts Sociology department, Cairo university. But I am a self-taught developer that started his journey as a freelancer. My specialty is in back-end development using Python and Django framework, I am always looking forward to learning new things and improving my skills.

## PROFESSIONAL EXPERIENCE

---

### Back-End Web Developer (Python-Django)

Jan 2020 - Present

*Freelancing*

As a freelancer I accept variant projects, either taking the full responsibility of the project or collaborating with other developers to develop projects.

**Technologies:** Python, Django, Django Rest Framework, HTML, CSS, JS, Bootstrap, VPS Hosting

### Founder

May 2022 - Present

*Era Coding*

As a freelancer, I built my own team of developers to take on additional projects and manage them end-to-end, from initial planning to deployment.

**Technologies:** Python, Django, Django Rest Framework, HTML, CSS, JS, Bootstrap, VPS Hosting, Management

### Back-End Web Developer (Python-Django)

May 2024 - Sep 2024

*Fusion Minds AI*

I collaborated on developing the backend of the company's main website. My responsibilities included building RESTful APIs for authentication and various data endpoints using Django and DRF, configuring the Django admin as a functional dashboard, and deploying the application on Microsoft Azure.

**Technologies:** Python, Django, Django Rest Framework, Microsoft Azure
